

Introduction to HASPI and Expanding your Pathway

The Health and Science Pipeline Initiative (HASPI) is a collaborative network of K-16 educators, industry representatives, and community organizations that are actively engaged in the common effort to improve students' ultimate success in healthcare professions. HASPI preparation is intended for students of all academic levels and backgrounds.

The HASPI lab curriculum modules complement your adopted textbooks and curriculum to provide contextualized learning opportunities for all pathway students in their core academic classes.

Resources to help you expand your pathway.

www.HASPI.org	Free curriculum and resources for your medical pathway courses. Today's resources are also posted here.
www.SDCOE.net/CTE	Find the Career Pathways Resource Guide in the menu on the left side of the page to connect with a variety of resources.
www.Workforce.org/reports/lmi.workforce.org	Find up-to-date regional information on labor market trends.
www.caschooldashboard.org	Ensure all pathway students are considered prepared on the College and Career Readiness Indicator
www.cde.ca.gov/ci/ct/pk/documents/ssreview.doc	Conduct your self study on the 11 Elements of a High Quality Pathway
ucci.ucop.edu/	University of California Curriculum Integration See UCCI course descriptions for more information.
